## DETAILED ACTION

### *Specification*

The abstract of the disclosure is objected to because of the usage of the word "comprising". Legal phraseology should not be used in the abstract. The suggested language is "including". Correction is required. See MPEP § 608.01(b).

### *Double Patenting*

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-9 and 15-22 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 2-3, 5-8, 21-23, 25, 30-31, 41, and 43 of copending Application No. 10/183,710 in view of Richard W. Rees, "Ionomers", 14 Kirk-Othmer Encyclopedia of Chemical Technology, page 826. The claims of the present application require an ionomer, which is broad and includes styrene ionomers, as taught by Rees. In addition, the claims of the copending application require a "styrene polymer" which would include styrene ionomers.

Accordingly, the present claims and copending claims contain overlapping subject matter.

This is a provisional obviousness-type double patenting rejection.

***Allowable Subject Matter***

Claims 23 and 24 are allowable over the prior art references presently of record.

Claims 10-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
